

Lithostratigraphy system

Autor: Richard Dominik

Školitel: Ing. Alexander Šimko, PhD.

Konzultantka: doc. Mgr. Natália Hudáčková, PhD.

The screenshot shows a web-based administrative interface for a geological database. The left sidebar, titled 'Craftable', contains a navigation menu with sections: CONTENT (Intervals, Fossilses, Lithotypes, Methods Of Measurements, Areas, Publications, Profiles, Geological Units, Measurements Of Ages), FORMATIONS (Formations, Formations to review), REVIEW, and SETTINGS. The 'Formations' section is currently selected and highlighted in blue. The main content area displays a table titled 'Formations' with four entries:

#	ID	Slovak title	English title	Parent	Actual formation	Approved by	Created by	Status
1		Chropovský zlepenec	Chropov gravel					
2		Podbrančský zlepenec	Podbranč gravel					
3		Lužické súvrstvie	Lužice Formation					
4		Winterberský zlepenec	Winterberg gravel					

Below the table, a message states: 'Displaying items from 1 to 4 of total 4 items.'

In the top right corner of the interface, there is a user profile for 'Administrator' and a 'Powered by Craftable.' logo.

O bakalárskej práci

- Webová aplikácia pre správu litostratigrafických dát.
- Dáta o geologických formáciach, podmormáciach, relevantných publikáciach, oblastiach a pod.
- Potvrdzovanie zmien schvaľovateľom.
- Uchovávanie viacerých verzií dát.
- Vyhľadávanie dát pre verejnosť'.
- Používateľské role.

The illustration shows a person with dark hair and a blue shirt sitting cross-legged on the floor, facing a laptop. The laptop screen displays a search interface with the word 'luz' in the input field. Behind the person are three light-colored shelves. The top shelf holds four books and two photo frames. The middle shelf holds two photo frames and four books. The bottom shelf holds four books and two photo frames. The background is a light gray gradient.

Detail formácie

Lužické súvrstvie

Administrator Administrator

Anglický názov

Lužice Formation

Synonymá

Lužické vrstvy (Buday & Cicha 1956), lužická séria (Cicha et al., 1967)

Intervaly

Oligocene - Paleocene

Hrúbka

1200-1300 m

Geologické jednotky

geological unit 1, geological unit 2

Zdôvodnenie názvu

Názov odvodený od obce Lužice, jz. od Hodonína na Morave.

História

Popis

Genéza

Vzniklo v morskom prostredí, vrchná časť v prostredí vysladenom.

Litologický popis

Súvrstvie je tvorené pelitmi a pieskami/ pieskovcami.

Charakteristické fosílie

Fontbotia wuellerstorfi (Schw.),

Bolivina antiqua Orb.,

Pracovisko poskytlo Českou akademii věd v roce 1956. Cicha 1967.

Detail formácie

Fosílie

Výskyt

Publikácie

Lingulina costata Orb. (Buday & Cicha, 1956; Cicha, 1956)

severná časť Viedenskej panvy (od Mistelbachu k Hodonínu a Senici)
popis

Jiříček R. & Seifert P. 1990: Paleogeography of the Neogene in the Vienna Basin and adjacent part of the Foredeep. In: Minaříková D. & Lobitzer H. (Eds.): Thirty years of geological cooperation between Austria and Czechoslovakia. Ústř. Úřad Geol., Prague, 89—104.

Zdroje fosíliei

The Craftable interface displays a geological record. On the left, a sidebar lists categories like Content, Formations, and Settings. The main area shows a 'Titles' section with three entries: Slovak title ('Corporis placeat molestiae optio et.'), English title ('Occaecati repellat quas et labore.'), and Other titles ('Rerum quod rerum aperiam sapiente aut.'). Below this is a 'General info' section with fields for Thickness (15-25), Parent (empty), and Genesis (empty). A rich text editor is shown with placeholder text: 'Impedit quo quia accusantium iste unde nostrum sequi. Vitae modi harum sit ut. Sint sed delectus eum delectus. Quam rerum explicabo vel.' At the bottom right of the text editor is a green checkmark icon. To the right of the main content are several cards: 'Contributors' (Izabella Cummerata), 'Area' (empty), 'Geological units' (empty), and 'Publications' (Sources of fossils: 'Cum aut sed temporibus laudantium dolorem saepe dolor.').
